Education

Manisa Celal Bayar University
BSc in Computer Engineering 06/2025
Thesis : Invoice-Based Tax Compliance & Reporting Tool

Experience

Pink Home Manisa
Position Title 07 – 2022

- Managed company-wide IT infrastructure including networks, web systems, and cybersecurity operations
- Designed and developed custom internal software systems, including Sales Tracking and Production Modeling tools
- Automated internal workflows, improving operational efficiency and data accuracy
- Provided daily IT support and ensured uninterrupted system availability
- Planned and maintained hardware, software, and network systems

Pink Home Manisa
Production Supervisor / Team Leader 03/2023 - Present

- Coordinated and managed sales and production teams of over 30 employees
- Conducted process analysis and implemented system improvements to increase production efficiency
- Led high-budget hotel projects and custom production orders from planning to delivery
- Oversaw production scheduling, logistics coordination, and resource allocation

DealerHub — Production-Ready B2B Dealer Management SaaS

Full-Stack Developer | Next.js, TypeScript, Prisma

- Developed and delivered a full-stack B2B SaaS platform for dealer and store management using Next.js (App Router) and TypeScript
- Deployed the application to a VPS environment using Nginx as a reverse proxy
- Configured SSL/TLS certificates to enable secure HTTPS communication in production
- Implemented role-based authentication and authorization using NextAuth v5 with JWT session strategy
- Designed and maintained scalable database schemas using Prisma ORM
- Built secure credential-based login with password hashing via bcryptjs
- Implemented Server Actions and API route handlers for type-safe backend operations
- Delivered a production-ready system and successfully sold the solution to a business client

Skills & Interests

Technical Skills

- **Programming Languages:** TypeScript, JavaScript, Python, SQL, C#
- **Web Technologies:** Next.js (App Router, Server Actions), React 19, HTML5, CSS3, Tailwind CSS v4 , Streamlit , Django
- **Backend & APIs:** Node.js, Nest.js, REST APIs, Server Actions
- **Databases & ORM:** Prisma ORM, SQLite, PostgreSQL, MySQL
- **Authentication & Security:** NextAuth v5, JWT, Role-Based Access Control (RBAC), bcryptjs, SSL/TLS
- **DevOps & Deployment:** VPS Deployment, Nginx, PM2, Linux Server Management
- **AI & Data:** RAG Architectures, LLM Integrations, Pandas, NumPy, TensorFlow
- **Tools:** Git, GitHub, VS Code, Postman

Data Science & AI

- **Data Analysis:** Pandas, NumPy, Exploratory Data Analysis (EDA)
- **Machine Learning:** Scikit-learn, Supervised Learning, Anomaly Detection
- **Deep Learning:** TensorFlow (Foundations)
- **AI Systems:** RAG Architectures, LLM Integrations (Google Gemini)
- **Data Processing:** PDF Parsing, Data Extraction, Feature Engineering
- **Tools:** Git, GitHub, VS Code, Postman

Languages
Turkish : Native / **English :** English: B2 (Professional Working Proficiency)
